

Co-ordinate game [Sheet 2]-Instructions

- Child closes their eyes to fully concentrate.
- Read the sequence of co-ordinates out twice only and clearly.
- Child memorises the sequence and places counters on the grid.
- Read out aloud so he/she can check.
- If they have placed a wrong counter down, he/she then places it in the correct position to see what it looks like.
- The same sequence is repeated until they are correct. (If this appears to be difficult try with 2 co-ordinates)

(Note-these co-ordinates are in alphabetical order)

- 1) A1, C3, D1
- 2) B2, D2, G4
- 3) A6, B6, D3
- 4) C4, D2, E6
- 5) E3, F3, G1

(If your child is comfortable try 4 co-ordinates in alphabetical order)

- 1) B6, D4, F6, G1
- 2) C3, E5, F2, G3
- 3) B2, D2, E2, F1
- 4) C4, D4, F1, G6
- 5) A1, B3, C1, F5
